Inheriting DNA of solving social challenges, we create diverse value by leveraging mutually reinforcing elements of the Group’s capability to bring together diverse businesses and each business’ presence and competitive advantage in creating new value through solving problems with its own strengths, while also combining various types of capitals. Going forward, we will work to provide value on a larger scale through Real Data Platform (RDP), a framework for creating new solutions that contribute to Security, Health and Wellbeing by utilizing real data accumulated from each business.

Seeking to solidify our value creation ability by addressing social challenges, we have designated “SDGs in Business Management” as one of the Group Management Foundation in our Mid-Term Management Plan, which started in FY 2021. Drawing on a solid financial capital base and relationships of trust with various stakeholders (social and relationship capital), the Group will work together to implement the three core strategies of the plan, thereby steadily delivering value to society and making progress in achieving the SOMPO’s Purpose.
