1. Summary

- Given the increasingly tougher operating environment surrounding SOMPO Holdings, such as numerous natural disasters in the world and the emergence of new needs in the VUCA era, agile and flexible management structure is required to be in place as soon as practical.
- SOMPO Holdings strives to become “unique and uncommon corporate group in the world” by pursuing the two initiatives to “globalize its business” and “revolutionize its business (a Theme Park)”. SOMPO Holdings has started to consider changing its group governance structure to develop a firmer management structure which enables globalization and diversified businesses and services leading to the security, health, and well-being of customers.
- Details of the governance change are shown in a diagram below.

(1) Organizational restructuring - A shift to company with committees (scheduled in June 2019)

- As a next stage of corporate governance, SOMPO Holdings will change its governance structure from "Company with board of company auditors" to "Company with committees" so that the Group can accelerate the decision-makings and execute more actively to achieve its goal. Along with this change, SOMPO Holdings aims to strengthen both the function of supervision and execution:
 - (i) by clarifying their roles and responsibilities; and,
 - (ii) by encouraging the BoD mainly consisting of outside directors to focus on supervision.
- The shift to "Company with committees" is put into effect subject to the 9th General Shareholders Meeting's approval to revision of the article of incorporation which is scheduled in June 2019.
