Sompo Holdings, Inc.

SOMPO issued Annual Report 2021

Sompo Holdings, Inc. (Group CEO and President: Kengo Sakurada) issued Annual Report 2021.

Prior to the start of the Mid-Term Management Plan with 2021 as the first year, Sompo Holdings established “SOMPO’s Purpose” to clarify the Group's medium- to long-term goals and the value which we are continuously delivering to society.

In response to this, Annual Report 2021 introduces the background that led to the establishment of SOMPO’s Purpose and the thoughts contained in it, as well as the outline of new Mid-Term Management Plan that shows specific efforts for the next three years toward the realization of the Purpose.

In addition, the report illustrates “SDGs in Business Management” in detail with Materiality and KPI disclosure, which is designed as one of the mechanisms to support sustainable growth of the Group and intended to create economic and social value by resolving social challenges through our core business.

With this report, we hope that all stakeholders including customers, shareholders and investors, and partners of the Sompo Group will deepen their understanding of the Sompo Group. Also, we would like to lead to constructive dialogue with them toward enhancing corporate value over the medium to long term.
