Sompo Holdings, Inc.

Sompo Holdings, Inc. recognized with prestigious A score for Climate Action by CDP

Sompo Holdings, Inc. (Chairman & Group CEO: Kengo Sakurada, hereinafter “Sompo Holdings”) has been recognized for leadership in corporate sustainability for the sixth time by global environment non-profit CDP, securing a place on its prestigious A List.

CDP leverages investor and buyer power to motivate companies to disclose and manage their climate-related risks and opportunities. Also, drives companies to reduce their greenhouse gas (GHG) emissions, safeguard water resources, protect forests, and initiatives through their supply chain.

For details, please visit the website of CDP. <https://www.cdp.net/en>

The Climate A List is to be given to a company assessed as one of the global leaders, who take distinctive and excellent actions in responding the global climate change. Over 18,000 companies disclosed environmental data and initiatives through CDP in 2022 and the Climate A List is comprised of 283 global companies.

The Sompo Group aims to achieve net zero greenhouse gas (GHG) emissions by 2050 (*), and in fiscal 2022 we have strengthened underwriting and investee and borrower company policies toward the implementation of the “SOMPO Climate Action”. Based on this policy, we will promote GHG reduction through engagement with business partners and investee companies, and promote the development of products and services that contribute to the spread of renewable energy, such as "ONE SOMPO WIND Service". We will contribute to the "energy transition" that is indispensable for the transition to a green society.

*Sompo Holdings is the first company in Japan to join three net zero alliances (NZIA, NZAOA, NZAM) under the Glasgow Financial Alliance for Net Zero (GFANZ), a global coalition of financial institutions aiming to achieve net zero GHG emissions by 2050.

The Sompo Group aims to realize the Sompo Purpose, which is expressed as “With ‘A Theme Park for Security, Health and Wellbeing’, create a society in which every person can live a healthy, prosperous and happy life in one’s own way”. Together with our stakeholders, we will put into practice “contribution to the creation of a green society in which the economy, society, and the environment are in harmony.”
