

October 16, 2026
Sompo Holdings, Inc.

Publication of "Integrated Report 2026" and "Financial and Corporate Data Report 2026"

Sompo Holdings, Inc. (Group CEO, Director, President and Representative Executive Officer: Mikio Okumura) announces that it has published its "Integrated Report 2026" and "Financial and Corporate Data Report 2026." We invite all stakeholders to read both reports and welcome your candid feedback on the initiatives of the Sompo Group.

1. Change in Publication Structure

Last year, information regarding medium- to long-term value creation, sustainability initiatives, and financial/corporate data (financial and non-financial information) was published together in a single report. This year, reflecting feedback from our stakeholders and to improve readability, we have divided the content into two separate publications: the "Integrated Report (Main Section and Sustainability Case Studies)" and the "Financial and Corporate Data Report."

2. Editorial Policy and Key Contents of Each Report

1) The "Integrated Report – Main Section"

Focuses on communicating our Group's strategies for sustainable growth, highlighting the aims and background (Why) as well as future actions (How). Structured around SOMPO's Materiality, key contents include the growth strategies for SOMPO P&C and SOMPO Wellbeing, Group-wide initiatives such as SOMPO Earth Positive Actions, Digital/data/AI strategy, Human capital strategy, and Governance.

2) The "Integrated Report 2026 – Sustainability Case Studies"

Published as a separate volume to the Integrated Report, featuring specific examples, indicators, and data related to environmental, social, and governance (ESG) initiatives. Reading this together with the Main Section enables a deeper understanding of our Group's concrete financial and non-financial initiatives aimed at sustainable growth.

3) The "Financial and Corporate Data Report 2026"

Comprehensively covers recent business performance and corporate data.

Where to Find Each Report
