Objectives of Stakeholder Engagement

We engage with stakeholders with two main objectives: The first is to incorporate stakeholders' ideas and opinions into Group decision-making so that we can innovatively improve the quality of our initiatives. The second is to actively pursue deeper levels of understanding and collaboration with our stakeholders so that based on shared values we can take action toward a better society.

Continued engagement informs and influences the identification of our material issues and setting of our CSR-KPIs. Through such engagement, we work to deliver products and services that help address social issues while revising and improving our initiatives.
